New Products

New Products for 2026

We're thrilled to introduce the latest additions to our range - the [Butterfly](#), [Ladybug](#), [Toadstool](#), [Sylvan Bell-Trees](#), and brand-new drums for our popular [Street Drum Collection](#). We've also enhanced our offering by creating new, larger versions of some of our most popular ensembles, adding extra instruments for even more variety and flexibility - all while keeping the original sets available.

Expanding Our Inspired by Nature Range

These new instruments expand our incredibly popular Inspired by Nature collection, which has captured the imaginations of people worldwide. Combining beautiful, nature-inspired designs with rich, harmonious sounds, these instruments look stunning and sound even better! Installed in botanical gardens, sensory trails, school playgrounds, and community parks worldwide, they've become focal points for play, learning, and connection.

The Butterfly, Ladybug, and Toadstool continue this theme, offering whimsical, eye-catching designs that invite children and adults alike to explore music outdoors. Our Sylvan Bell-Trees add a magical, melodic element that complements natural landscapes perfectly, making them ideal for nature reserves, outdoor classrooms, camps and inclusive play spaces.

Introducing New Street Drums

We've also expanded our Street Drum Collection, responding to the growing demand for urban-inspired, high-energy instruments. These new drums bring rhythm and movement to parks, plazas, and community spaces, encouraging spontaneous jam sessions and group play. Perfect for schools, art centers, and city installations, they're designed for durability, accessibility, and pure fun.

With these additions, our collection remains the largest in the world, giving you unmatched choice and flexibility when planning your outdoor music space. We've listened to our customers, and we've delivered - more themes, more variety, and more ways to make music outdoors.

Let's make 2026 the year of more music, more joy, and more connection outdoors!

'Bring a touch of nature and melody to your outdoor space with the Outdoor Musical Ladybug'

This colorful, nature-inspired instrument sparks curiosity and creativity in young learners. Ideal for early years settings, libraries, and family attractions. It's durable and easy-to-play design encourages sensory exploration, and musical fun for all abilities. Perched on a green leaf, the [Ladybug](#) invites children to press any of its six black spots, which together create a C Major Pentatonic scale - perfect for intuitive, hands-on rhythm and melody play.

Ladybug

C Major Pentatonic Scale C6-C7

Butterfly

C Major Diatonic Scale C6-C7 - Arranged in pairs of Parallel Fifths

‘Celebrate nature and melody’

Our [Butterfly](#) is a vibrant centerpiece in Percussion Play’s Inspired by Nature collection. Designed to resemble the iconic Monarch butterfly, a species admired worldwide for its beauty, ecological importance, and role as a flagship pollinator. Monarchs are often referred to as a poster species because their story raises awareness about the urgent need to protect pollinators and their habitats.

Designed for interactive play, the Butterfly encourages musical exploration and can inspire discussions about pollinators in educational settings. Blending art, music, and ecology helps create opportunities for joyful play and environmental awareness.

How It Works:

Hidden within its wings is a musical surprise: each of the four wings conceals a pair of bells arranged in parallel fifths:

Wing 1: E6 & B6 | **Wing 2:** F6 & C7 | **Wing 3:** D6 & A6 | **Wing 4:** C6 & G6

Together, these eight notes form a C6–C7 diatonic scale. Players activate the bells by gently pressing or pushing the wings, producing bright, resonant tones that encourage intuitive, hands-on play - no mallets required.

Why Monarchs Matter:

Monarch butterflies serve as powerful educational tools in schools, libraries, and nature centers. Their remarkable migration and reliance on milkweed symbolize interconnected ecosystems. By choosing the Monarch design, we aim to spark curiosity and inspire action - helping communities understand why protecting pollinators is essential for biodiversity and food security.

Perfect For:

- 🎵 Libraries and early years settings
- 🎵 Public gardens and pollinator pathways
- 🎵 Education centers and children’s museums
- 🎵 Parks and outdoor classrooms

The Butterfly is more than an instrument - it’s a conversation starter, a piece of environmental art, and a joyful way to connect people with nature. Let music amplify the message: pollinators matter, music matters, and together we can protect them.

Toadstool

C Major Diatonic Scale C6-C7

'Music Sprouts Here – Inspired by Nature Range'

Add a touch of woodland magic with the Outdoor Musical [Toadstool](#). Featuring eight tactile buttons on its vibrant cap, players simply press to create bright, bell-like tones - no mallets required. Tuned to a C major diatonic scale, this durable instrument encourages intuitive, hands-on play for little explorers and musicians of all ages.

Crafted from a rotomolded cap and powder-coated stainless steel post, the Toadstool is built for year-round outdoor use and supplied with ground or surface fixing options. Perfect for parks, playgrounds, sensory gardens, and educational spaces, it sparks creativity while inspiring conversations about nature, biodiversity, and environmental stewardship.

'Bring the beauty of nature to outdoor music spaces with the [Sylvan Bell-Trees](#) from our Inspired by Nature collection'

This striking set of three bell trees - Short, Tall, and Grande creates a harmonious soundscape with ascending notes and lush green tones reminiscent of redwoods. Tuned to complementary diatonic and pentatonic scales, the trio invites inclusive, collaborative play for all ages. Crafted with stainless-steel posts and weather-resistant bells, these durable instruments are perfect for parks, schools, sensory gardens, and community spaces. Available as a Trio or individually: Short (F Major Pentatonic), Tall (E Minor Pentatonic), or Grande (C Major Diatonic covering two octaves) with flexible mounting options.

Street Congas Duo

Unpitched Percussion

**'Urban rhythm meets public art
- sparking connection through
sound'**

Our [Street Congas Duo](#) introduces the energy of hand drumming to outdoor spaces with two brushed stainless steel drum heads mounted on a single post. Compact and contemporary, it's perfect for parks, plazas, and streetscapes - inviting spontaneous play and creative interaction.

As part of our Street Drum Collection, this instrument joins our popular Djembes and Tumbadoras, expanding the possibilities for urban percussion and community engagement. Durable, vandal-resistant, and designed for unsupervised areas, they transform public spaces into vibrant hubs of rhythm and connection.

‘Interactive street sculpture that brings people together’

[Street Congas Trio](#) takes outdoor percussion to the next level with three brushed stainless steel drum heads, allowing for layered rhythms and collaborative play.

A striking sculptural centerpiece for urban environments, it encourages multigenerational engagement and creative expression.

Our Street Drum Collection provides numerous opportunities to bring music and the arts into shared spaces. Weatherproof, low-maintenance, and built for high-traffic areas, they represent art you can play.

New Ensembles

‘Your Perfect Musical Space, Made Easy’

Our curated Ensembles take the guesswork out of designing harmonious outdoor music spaces, offering an easy and inspiring way to bring musical creativity to any setting. Each thoughtfully assembled set combines a selection of instruments that naturally complement one another, ensuring a beautifully balanced soundscape. These Ensembles provide excellent value for money, convenient ready-to-play options, and joyful, inclusive fun for people of all ages, backgrounds, and abilities. Whether you’re enhancing a school playground, a public park, a community garden, or a therapeutic setting, our Ensembles make it simple to create inviting musical areas that encourage spontaneous play and exploration.

We’ve expanded our Ensemble range to include a wider variety of collections, featuring newly added products alongside our most trusted and most popular instruments. This broader selection gives you more choice than ever before when it comes to building vibrant, engaging musical environments. This expansion reflects exactly what our customers have been asking for - bigger ensembles with more variety, themed groupings that spark imagination, and flexible options that make planning outdoor music spaces easier, more intuitive, and more exciting.

Every Ensemble is carefully and intentionally designed to ensure all instruments sound harmonious when played together, offering a rich blend of tones, timbres, pitches, and playing methods. This thoughtful musical balance creates deep, layered sound experiences that invite players to explore and stay engaged. From resonant chimes to rhythmic drums and melodic xylophones, these combinations encourage exploration and keep players engaged.

Playing in an ensemble encourages collaboration and social interaction, helping people of all ages build confidence and communication skills while fostering creativity and cognitive development. By listening, responding, and harmonizing with others, players experience a sense of belonging and shared achievement, all while developing auditory skills, coordination, and problem-solving abilities in a joyful, stress-free environment. These wide-ranging benefits make our Ensembles an ideal choice for inclusive outdoor spaces where music can bring people together, enrich daily experiences, and create lasting memories. Whether used for education, recreation, or therapy, our Ensembles help transform any space into a lively, uplifting musical destination.
